EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter McLarty (Reg. No. 44,923) on March 17, 2005.

The application has been amended as follows:

- a. In claim 5, change the phrase "claim 2" to -- **claim 1** --.
2. Claims 1, 4-12, and 15-22 are allowed.
3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests or renders obvious a MOS transistor (and its fabrication method) with a semiconductor layer on its source and drain regions while a metal silicide layer is on its drain and source extension regions which are beneath sidewall structures of the gate electrode.
4. The examiner notes the newly amended title and thus hereby withdraws the objection made to the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
